Healthy

Be Yourself

Your Body Needs Glutathione

Before we're even born, our bodies create a molecule called glutathione to defend against violent attackers like free radicals, chemical toxins and heavy metals.

As we age, our glutathione levels are depleted by every-day trauma encountered by the cells including exertion, physical and emotional stress, poor diet, and lack of sleep.

Look, Feel, and Live to the Max With
Advanced RiboCeine™ Technology

CELLGEVITY™ 

Cellgevity combines Max's **patented RiboCeine technology** with 12 complementary ingredients to help **support the production and functions of glutathione.**

*Roberts, J.C., Nagasawa, H.T., et al. (1987) Prodrugs of L-cysteine as protective agents against acetaminophen-induced hepatotoxicity. 2-(Polyhydroxyalkyl)- and 2-(polyacetoxyalkyl)thiazolidine-4(R)-carboxylic acids. In Journal of Medical Chemistry, 30, 1891-1896.

Reclaim Your **Day to Day Life**

Revolutionary Glutathione Support for Your Body

Give Your Body the Help It Deserves

If you want the best for your body, then you need to help it produce and **maintain your glutathione levels.**

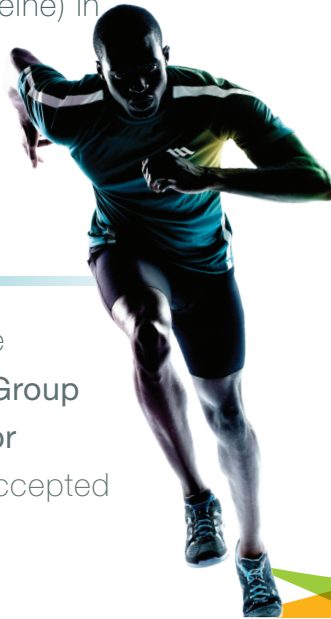

Today, Max has taken the science of RiboCeine's **glutathione enhancement** to a whole new level **with Cellgevity.**

RiboCeine was shown to be 300% more effective than NAC (N-Acetyl-L-Cysteine) in raising liver glutathione levels.*

Safe for Professional Athletic Use

Independently Certified by the **Banned Substance Control Group** to contain **no contaminants or banned substances** above accepted thresholds.

Cellgevity Is the Life's Work of **Herbert T. Nagasawa, Ph.D.**

- Professor of Medicinal Chemistry and Toxicology at the University of Minnesota for **45 years.**
- Senior Career Research Scientist for the Veterans Administration, Medical Center.
- Senior Editor of the Journal of **Medicinal Chemistry** for **32 years.**
- Executive Research Scientist for Max International.

Dr. Nagasawa dedicated his research to help people better **recover their health and wellness.** Now you can receive the benefit of those decades of research and development **with Cellgevity.**
